

FIELD NOTE: **Welcome to Embers & Oak !**

DATE: **11 SEP 26**

Hi all, I'm Mick, the owner of Embers & Oak.

Not that one 'Owns' a wood, I am merely the Custodian or Guardian for a time ! This wood has been here long.. long.. long.. before me, and will be here a long.. long.. long.. time after I have gone !

There are trees in this wood believed to be over 500 years old, and it is designated as ancient woodland. That only tells us it has been continuously wooded since at least 1600... my guess is that it was here long... long before that!

I would like to take the opportunity to Welcome you to the website, and if you like what you have seen and read, I'd like to Welcome you to the Woods sometime !

Pop back to this page from time to time, there will be updates on activities being offered and general news from the woods too.

See you soon !

Mick
